About GBSA GBSA History Vision & Mission Organization Structure

OFF

### About **GBSA**

### GBSA exists only for the innovative growth of Gyeonggi Province.

Since its launch as an integrated corporation in January 2017, the Gyeonggido Business & Science Accelerator(GBSA) has been solidifying its position as a comprehensive support institution for SMEs, both in name and reality, throughout the entire business cycle - including start-up, commercialization, investment, and export – as well as for science and technology R&D, cluster creation, and the fostering of bio- and regionally specialized industries.

In addition to the challenges posed by the global economic downturn, SMEs have to adapt to an environment of structural change, which includes the acceleration of the Fourth Industrial Revolution, global efforts to achieve carbon neutrality, and the reorganization of global value chains.

GBSA will upgrade to "GBSA 2.0" with a new organization, new mission, and new vision to help Gyeonggi Province's SMEs respond to this rapidly changing business environment.

Firstly, GBSA will do its utmost to foster the development of future industries, in areas such as semiconductors, biotechnology, and advanced mobility.

Secondly, GBSA will establish a dynamic innovation ecosystem by strengthening innovation growth poles in each region.

Thirdly, GBSA will take the lead in enhancing the global competitiveness of our companies by fostering strong, specialized companies.

Finally, GBSA will actively promote management innovation to become a top-notch business accelerator.

As the innovation growth accelerator for Gyeonggi Province, GBSA will strive to make Gyeonggi Province the "Capital of Opportunity."

### Unlimited growth starts

### **Emerging Industry Department**

We will secure the cornerstone for future growth by fostering emerging industries.

We foster emerging new technologies based on advanced technologies, including Al.

for growth.

13

1. Promotion of New Industries

#### **Establishing Gyeonggi Province AI** Industrial Ecosystem

▷ Training AI experts, discovering start-ups, fostering the data industry, & establishing a Gyeonggi Province AI ecosystem

#### Fostering Future Emerging Industries Through the Convergence of Advanced technologies & Existing Industries

▷ Discovering and fostering future emerging industries through the convergence, testing, & support of advanced technologies, such as AI, metaverse, and robots the existing industries

#### We are establishing the Gyeonggi Province type hydrogen cluster and fostering small giants in the energy sector.

#### Aiming at Becoming Key Base for the Hydrogen Industry

- Securing a key base for the hydrogen industry through the activation of small-scale hydrogen production bases, full-fledged production, and new construction of medium to large hydrogen product bases
- ▷ Providing Hydrogen energy technology development support and performance sharing to promote the hydrogen industry in the province

#### **Fostering Strong Giants in Energy**

▷ Providing basis for growth of new energy industries by finding prospective energy companies in the province and giving support for commercialization

#### We promote manufacturing innovation of traditional industries and provide the foundation

#### **Promotion and Support of Digital Transformation** of the Traditional Manufacturing Industry

- ▷ Support for the digitalizaiton of traditional manufacturing companies such as furniture, textile, root industry, etc.
- ▷ Promoting shift to high values by discovering digital transformation business models

#### Providing a Foundation For Growth, by Creating **Emerging Industries & Pioneering New Markets**

▷ Support on globalization, etc. through digital integration of the textiles and furniture sectors, development of high function and eco-friendly technologies, and the utilization of Gyeonggi Textile Centers (GTC)

### **Bio Industry Department**

We support the growth of bio-start-ups by establishing a bio-industry innovation ecosystem.

14

We establish the bio-innovation ecosystem.

Gyeonggi Province Global Bio Industry Hub

▷ Fulfilling the role of a control tower for fostering the bio-health industry in Gyeonggi Province ▷ Establishment of a bio-start-up ecosystem

#### Establishing a Bio-Innovation Hub & **Connecting With the Local community**

- ▷ Constructing bio-clusters possessing global competitiveness
- ▷ Establishing a bio-innovation base and connecting to regional bases

#### **Bio Start-Up Accelerator** We foster

entry.

- bio start-ups.
  - Stage-by-stage support linking technology start-up, R&D, technology commercialization, & attracting investments > Open innovation by operating cooperation programs for startups with medium & large companies

#### Supporting research equipment, specialized research, and cultivating experts

Support specialized research based on advanced research equipment such as materials discovery, properties analysis, validity evaluation, and prototype development > Foster bio experts customized to business environments

We lead new innovative technology industries.

#### Promoting Emerging Industries in Red, Green & **Convergence Bio-Innovation Technologies**

- ▷ Development of new drug candidate materials, functional natural material R&D, and securing intellectual property rights
- Commercialization support through joint industry-academicresearch technology development and technology transfer
- ▷ Establishment of advanced bio-research basis and support for pilot testing
- ▷ Digital health care technology and product development support

Supporting Supporting bio-Companies to Enter Global Markets global market & Expand Networks

- ▷ Bio-company global marketing/promotion, & strategic partnering linkage
  - ▷ Finding cooperation models with local governments of advanced countries and supporting companies
  - Construction of bio-health regulatory science and licensing support system with corporate support

## **Semiconductor Business Support Center**

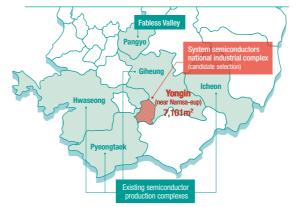

By constructing a support system tailored to users, we will foster and support global semiconductor companies by addressing difficulties felt by semiconductor companies in Gyeonggi Province and one-stop support services.

We establish systematic development plans and strategies for the **Gyeonggi Province** semiconductor industry.

15

**From Fabless - Foundry** → Materials Manager --We will create a global. top-tier semiconductor cluster with one-stop support services.

- **Construction of Gyeonggi Province** Semiconductor Business Support System & **General Support**
- ▷ Construction and operation of general support system per stage for semiconductor companies in the province
- ▷ Construction of one-stop support system through cooperation between company support institutes in Gyeonggi Province(34 institutes in the Gyeonggi Province Semiconductor Innovation Network)
- Support establishment of early completion of the Gyeonggi Province Semiconductor Cluster in cities such as Yongin, Pyeongtaek, & Anseong

#### **Establishment of Development Plans For the** Gveonaai Province Semiconductor Industry

- ▷ Establish general plans for fostering the semiconductor industry with the consideration of the features of the Gyeonggi Province semiconductor industry
- ▷ Establish corporate support policies and promotion plans based on the demands of semiconductor companies in the province

#### **Construction of Semiconductor Personnel** Supply Chain in Gyeonggi Province

- Resolve personnel supply and hiring issues of semiconductor companies by linking personnel demand of semiconductor companies in the province with education opportunities
- ▷ Construction and operation of a semiconductor education institute alliance in the province

We will play a pivotal role in creating an environ for domestic system semiconductors through the construction of a fabless integrated complex at the 3rd **Pangyo Techno Valley.** 

#### Support for Establishing a Fabless Integrated Complex Centered at the **3rd Pangyo Techno Valley**

- Establish semiconductor industry ecosystem by attracting fabless-related ventures and start-ups
- ▷ Support for establishing fabless and forward & rear industrial integration complexes in the province

### **Innovation Growth Research Department**

We will drive innovative growth in Gyeonggi Province by researching site-oriented policies.

### We present future-oriented policy visions.

#### Establishing Systematic Mid- to Long-Term Policy Plans to Foster Science Technologies & Emerging Industries With SMEs

- Set-up the mid-to long-term master plan for establishing the cornerstone for future innovation
- General plans to pursue systematic SME fostering policies
- Status studies on future policy development and research on improvement plans

We research site-oriented

Site-Based Policy Research Such as Timely

Pending Issue Analysis & Presenting

▷ Analysis of pending issues in the province and

▷ Publication of 'Issue Report' to provide trendy

▷ Publication of 'Policy Focus' to analyze pending issues

 Publication of 'GBSA Review' for analyzing industry, technology, & policy trends and suggesting implications
Publication of 'GBSA Daily Report', a daily newspaper

policy alternatives.

### We strengthen the operation of policy cooperation bases.

#### Construction and Operation of Base for Linking Central & Gyeonggi Province Innovation Policies

- Operation of local science & technology base: Gyeonggi R&D Support Department
- Operation of central, provincial, & city cooperation base: local future science & technology projects

 $\int$ 

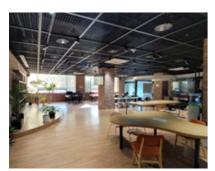

# We will establish a dynamic innovation ecosystem.

Start-up Department Techno Valley Innovation Department Department for Equal Opportunity Business SOS Center

**START** 

### **Start-up Department**

We create a virtuous cycle of coexistence and cooperation through support for start-ups and ventures.

#### We provide support for discovering and fostering innovative technological start-ups.

#### Full Cycle Support for Start-Ups, From Idea **Discovery to Growth & Re-Challenge**

▷ Systematic support for finding promising ideas, commercialization (product, fund procurement, marketing) support, and challenging again (revitalization, reinvestment)

#### Concentrated Support on Businesses & Industries That Will Lead the Future

- ▶ Finding and supporting outstanding companies in the innovative and emerging industry sectors such as BIG3, D.N.A, and the metaverse
- ▷ Support for lifestyle and eco-friendly businesses such as shared economy, pets, companies that practice carbon neutrality, etc.

#### We expand online and offline start-up infrastructure and revitalize local networks.

#### Fostering Innovative Entrepreneurs by Operating Online Start-Up Platforms and Start-Up Hubs

- ▷ Provide real-time integrated start-up information and strengthen communication using the 'Gyeonggi Startup Platform (GSP)'
- Conduct start-up education by field, and step-by-step, nurturing of start-up founders through accelerating and networking activities

#### Construction and Promotion of Local Network Throughout all of Gyeonggi Province

- ▷ Activation of preliminary and early start-up incubation areas and strengthen collaboration between incubation agencies
- ▷ Creation and activation of the Start-up Innovation Spaces (8 locations), a full-cycle start-up support space for each growth stage
- ▷ Creation of synergy through operation of companycustomized prototype manufacturing centers (6 locations) & collaboration between regions

#### We strengthen the start-up ecosystem through a virtuous cycle of public & private sector cooperation.

#### Promotion of the Investments by Attracting Interests From the Private Sector for Start-Ups

- Encourage crowd funding (reward and stock type), and strengthen commercialization support for companies that were successfully invested in
- ▷ Promote investments and support commercialization by linking investment institutes such as AC and VC with start-ups

#### Promotion of M&A for a Cycle in the Start-Up Ecosystem

▷ Strengthen public functions for establishing startup-friendly ecosystems that link start-ups  $\rightarrow$ investments  $\rightarrow$  growth  $\rightarrow$  collection & reinvestment

# **Techno Valley Innovation Department**

We will take the lead in the advancement and spread of an innovation cluster centered on cutting-edge convergence technology.

Korea's Advanced R&D Mecca of the Fourth Industrial Revolution

Pangyo Techno Valley is an R&D hub that integrates IT, BT, CT, and NT, and it is the

Pangyo **Techno Valley** 

representative innovation cluster of the Republic of Korea with an innovative growth ecosystem abundant in technologies, start-ups, cooperation, and human resources. By linking the first, second, and third Pangyo

Techno Valleys, it is taking a leap into the world as an advanced industry cluster landmark with global competitiveness.

We will take a leap to become a global innovation cluster by creating a dynamic innovation ecosystem in Pangyo Techno Valley.

#### Establishment of the Pangvo Techno Vallev Governance

- Construction of cooperative governance ssociation of relevant institutes, etc.)
- Strengthening executive power of the Gyeonggi Province Innovation Cluster policy (status survey of tenant companies), and internalization of support projects

#### Enhancing the Global Brand Value of Pangyo Techno Valley

- Promote integrated brand of Pangyo Techno Valley (construction of integrated PR hall, production of promotional contents, integration of communication windows)
- Construction of global network for international exchange and cooperation

19

18

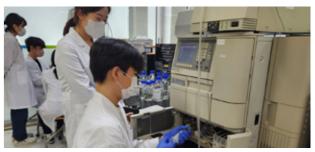

Center of Gyeonggi Province Bio-Cluster

Gwanggyo **Techno Valley** 

Gyeonggido Business & Science Accelerator, together with the Gyeonggi Bio Center, Advanced Institute of Convergence Technology, Korea Advanced Nano Fab Center, etc., is located at Gwangqyo Techno Valley, and it is focusing on cooperating with local innovators (industry, academic, research, medical) and fostering advanced industries such as IT, BT, CT, and NT to take the lead in providing an innovative growth ecosystem for the Republic of Korea.

In particular, it is fostering a next-generation bio-health industry based on innovative technologies by establishing a bio-health innovation cluster led by Gyeonggi Province.

We are establishing Gwanggyo Techno Valley with an innovative ecosystem for strengthening competitiveness of, and sustainable growth for, SMEs.

#### Establishing a Bio-Innovative Growth Ecosystem of the Republic of Korea

- ▷ Foster as a bio strategic base through cooperation of bio innovators (industry, academic, research, medical)
- ▷ Foster the bio-industry through the incentive support for bio start-ups

#### Promotion on digital transformation of Gwanggyo Techno Valley

Digital infrastructure transformation that applying cutting-edge technologies (Hi-Pass, digital signage, etc.)

## **Department for Equal Opportunity**

We will revitalize the local economy as a 'partner for regional growth' together with SME sites.

We resolve the difficulties of companies by promoting on-site support projects.

#### Up-Close On-site Support for **Regionally-Led Companies**

- ▷ Operate Business SOS Center linked with cities and townships to establish a healthy corporate environment
- ▷ Business SOS support that links city and township entrepreneur associations, meetings, & municipal policy seminars

#### Corporate Support Focusing on Work Sites Through Gyeonagi Province & **City/Township Cooperation Projects**

- ▷ Discovery of on-site support projects and providing demand-tailored support
- ▷ Promote information exchange and support project PR by activating online and offline networks for entrepreneurs, cities and townships, and relevant institutions

#### We lead growth of local industries by promoting support

customized to cities and townships.

#### Support for Discovering & Fostering Local **Growth Industries**

- ▷ Support for development, production, and sales channels for SMEs.
- Designing development support projects, product development and modernization of production facilities, & strengthening corporate capacities
- ▷ Support for pioneering overseas markets of cities and townships (export logistics cost support, exhibit support, etc.)

#### Support for Projects Customized Reflecting the City/Township Industrial Features

- ▷ Support for discovering projects based on local specialized industries(semiconductors, etc.)
- > Continuous discovery and linked support for cooperative projects requested by cities and townships

## **Business SOS Center**

We will contribute to the establishment of an innovative ecosystem by discovering company challenges and improving emerging industry regulations.

We provide indepth consulting

services for resolving the challenges

companies face.

#### Companies ▷ Respond to the needs of SMEs by conveying business support policy information from Gyeonggi

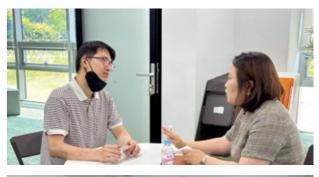

Preemptive Response to Difficulties of

- Province and the central government ▷ Communicating easily from the perspective of
- entrepreneurs to improve a company's ability to respond to changes in social systems and environments

#### **Operation of One-Stop Comprehensive** Support Center for Addressing the Difficulties of Companies in Gyeonggi Province

- ▷ Round-the-clock consulting support for policy funds, general management, export sales channels, and policy support project areas with a one-stop system for handling difficulties of companies both online and offline
- ▶ Free 1:1 in-depth counseling support with experts such as attorneys, patent attorneys, labor attorneys, etc. (advanced reservation required)
- ▷ For issues that are difficult to resolve through 1:1 consultation, experts can conduct on-site visit clinics to resolve the challenges companies face
- operation of an SME damage report center is ready to monitor the damage status of companies and prepare countermeasures
- ▷ When an external economic crisis issue occurs, the

We provide a stepping stone for opportunities to enter new industries.

#### **Regulatory Improvement Support for** Innovation in the Private Sector

- ▷ Support for making improvements to regulations for companies that created new products and services but have difficulties launching them because of the lack of verification standards and because they do not meet old specifications
- ▷ Support on the use of 'regulatory sandbox system' that exempts or postpones existing regulations so that companies can manifest their innovative ideas
- ▷ Support commercialization during the demonstration period after approval of the regulatory sandbox demonstration special application from the stage of application preparation

#### **Construction of Cooperation Network for** Better Public Services

- ▷ Communicate with more institutes and express opinions of entrepreneurs to ease difficulties and regulations of SMEs
- ▷ Continuous efforts for joint project development, etc. so that collaboration between institutes can provide practical help for the sustainable management of companies in the province

# We will take the lead in strengthening the competitiveness of our companies.

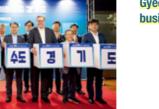

**G-Invest Promotion Department Business Growth Department Export Support Department** 

### **G-Invest Promotion Department**

We will be an investment partner of businesses to strengthen the 'global competitiveness' of Gyeonggi Province.

We will foster future growth industries of Gveonagi Province by establishing the Gyeonggi Province G-fund.

#### Activation of Gyeonggi Province Investment Ecosystem Through the Establishment of the Gyeonggi Province G-Fund

▷ Establish Gyeonggi Province G-Fund worth 1 trillion KRW by 2026 to support capital investment and growth of outstanding SME & venture companies in the province

#### **Establish Fund for Fostering Future Growth Industries of Gyeonggi Province**

▷ Pursue investments for fostering industries related to Gyeonggi Province, such as semiconductors, bio, & mobility

We strive for the global market entry of **Gyeonggi Province** businesses.

#### Activation of Participation in the Gyeonggi Province 100 Trillion+ Investment Attraction

> Attract investments related to cities and townships from domestic and foreign companies and institutions

#### Promoting the Discovery & Implementation of Overseas Innovation Technologies & **Strengthening Technological Competitiveness**

Strengthen overseas innovative technology matching by operating an overseas technology matching platform

#### We support the innovative growth of companies by linking internal and external networks.

#### Strengthening Investment Support Through **Collaboration of City/Township & Relevant** Organizations in the Province

▷ Expansion of field-oriented & base-oriented investment opportunities, such as cooperation between cities & townships within the province

#### **Expand Domestic & International Networks** to Attract Overseas Investment Promote Exchanges

▷ Activating exchanges & cooperation, including overseas institutions stationed in Korea. & foreign envoys visiting the province

### **Business Growth Department**

We will foster small but strong companies that will lead the innovative growth of Gyeonggi Province.

We will act as a ladder of growth for innovative companies that will lead the future of **Gyeonggi Province.** 

#### Providing 'Opportunities for Growth' **Through Intensive Support for SMEs With Growth Potential**

Provincial Small Giant Fostering Project (Star Company Fostering, Global Small Giant 1000+ Project). Green New Deal Technology commercialization for leading companies, SME business conversion growth, outstanding female entrepreneur support, etc.

#### **Discovering & Certifying the Outstanding** Companies of Gyeonogi Province That Will Lead the 'Center of Change'

▷ Promising SMEs, good companies, & family-friendly companies certification, etc.

We realize abundant opportunities for growth are created by establishing an **R&D support system** without 'blind spots'.

- Supporting Convergence & Integrated R&D in the Sectors of Innovative Industrial Technology
- Technology development (strategic industry, led by companies), technological development in the textile and leather sectors, support for first step in R&D corporate affiliated research centers, proposal of new technologies by residents of Gyeonggi

#### Establishing a Dynamic Innovation Ecosystem in the Province by Activating Industry-Academic-Research

▷ Construction and operation of alliances by industry sector, operation of networking program (mentoring, investment seminars, lectures, etc.)

We foster future talents that will drive innovation in **Gyeonggi Province.** 

#### Support for Nurturing Key Personnel by **Developing & Operating an Customized Training Courses for SMEs**

▷ SME employee education, core sector education for employees, customized education for business sites, World Class CEO Academy, etc.

#### **Cultivating Science & Technology and** SW Talents With Creative & Convergent Thinking

▷ Software (SW) Mirae Chaeum, local science culture capacity building, baby boomer corporate consulting support project, etc.

### ESG-LINK III ESG 인식확산 등 전략과 금융 정책 Policy 마케팅

Spreading ESG Management Awareness of SMEs

- ▷ Provide improvement reports with ESG online
- ▶ Hold ESG basic and in-depth education and conferences

#### Internalizing ESG Management & Improving Corporate Value of SMEs by Strengthening ESG Capabilities (Level Up)

▷ Conduct in-depth ESG consulting for SMEs and support acquisition of international certifications, etc.

## **Export Support Department**

We will support innovative growth of SMEs to strengthen global export competitiveness.

We will establish a digital-based export platform.

#### Expand Export Bases Through Digital Transformation (DX) of Support Infrastructure

- ▷ Leading the digitalization of SME export support ecosystem based on GBCprime (GBC Trilateral B2B Online Trading Platform)
- ▷ Completion of global online & offline networks by expanding the digital GBC organizations
- ▷ Implement the GBC support program stage by stage to realize digital transformation(DX) of the export support system

We support customized entry into global markets.

**Diversifying Global Market Entry Services** by Considering Promising Export Regions & Strategic Expansion Regions for SMEs in the Province

- Operation of customized group booths in overseas exhibitions of strategic markets and support for individual participation in overseas exhibitions
- ▷ Expand the trade mission focusing on promising industries such as K-medicine, bio, K-food, etc.
- ▷ Support for overseas expansion & investment attraction of new growth industries & SMEs with promising technologies

#### We lead ESG management for the sustainable

- growth of SMEs in **Gyeonggi Province.**

self-diagnosis service / ESG diagnosis evaluations

We strengthen the export competitiveness in response to the new commerce environment.

#### Proactively Pursue Overseas Marketing to **Respond to the Global Trade Environment & Expand Exports**

- Promote overseas marketing aligning with global changes and issues such as digitalization and ESG
- Promote market diversification and various export support projects according to the rapidly changing commerce environment
- ▷ Expand overseas G-FAIR in strategic markets (ASEAN, India, Middle East, etc.)
- ▶ Hold G-FAIR KOREA as an export, domestic, & investment support platform for companies in early marketing stages

We seek and empower promising export companies.

#### Providing One-Stop Overseas Marketing for Strengthening the Capacities of Export **Companies in the Province From the Export** Preparation Stage to the Digital Trade

- Customized consulting support and marketing empowerment to promote overseas entry of new export companies
- ▷ Resolving export logistics difficulties due to global supply chain issues by supporting for logistics costs of export companies
- Establish a foundation for strengthening the export competitiveness of SMEs by discovering trade experts for vulnerable groups in the province

We will actively promote management innovation to make GBSA a world-class organization.

We will firmly plant ourselves as an innovation partner for companies through top-notch GBSA management innovation.

We advocate ESG management, communicate with customers, and present directions for SMEs in **Gyeonggi Province.** 

Leading ESG management innovation of public institutes and SMEs by collecting the opinions of provincial residents

We will secure the best expertise to lead innovation in the province's public sector.

Promote innovation by securing expertise in emerging future industry sectors, such as AI and semiconductors

We will strengthen digital management to become a performance-oriented public institute.

Implementing the most advanced work systems using Chat GPT, robots, etc. to construct an efficient performance creation system

We will establish ourselves as a trusted public institute through safe, transparent, and field-oriented management.

Become a world-class public institute that fulfills its social responsibilities through responsible management

Gyeonggido Business & Scien Accelerator

# There's No Limit Not to Businesses and Not to GBSA

GBSA has been gaining the trust in the global market beyond Gyeonggi Province. Not becoming complacent, it will do its best with businesses to pioneer a wider economic territory.
